Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. This Office action is in response to applicant's paper filed 6/20/2006. **Claims 1-17** as amended are still in consideration for this application.
2. Examiner **withdraws** the claim objection(s). Examiner thanks applicant for making the necessary corrections.
3. Examiner does **not withdraw** the anticipated rejection to ***Shimizu***. The following comments fully address applicant's arguments with respect to the rejection. Applicant's arguments filed 6/20/2006 have been fully considered but they are not persuasive. In particular, given a reasonable but broad interpretation of the amended claimed subject matter, the recitations are still taught by the reference. Please see the rejection below. Specifically, note that the means associated with the amended claims limitations rewritten in independent form are considered allowable.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. **Claims 1, 3, and 11** are rejected under 35 U.S.C. 102(e) as being anticipated by U.S.

Patent No. 5,293,378 to *Shimizu*.

As to **claim 1**, see e.g., figure 1 of *Shimizu*. In particular, a distribution unit is taught as separation means, a switch unit is taught as transmitting means, and a multiplex

Art Unit: 2616

unit is taught as receiving means, see e.g., column 3, lines 30-45. In particular, note from figure 2 that the portions of the packet (i.e., units of packets) are distributed or separated sequentially in an arrival order and independent of the packet destination. The transmitting means comprising the transmitters 16-19 and part of the transmission controller 10 contain no buffers and output the packets in an arrival order based on the output from the registers. The receiving means performs the reverse means for the purpose of recovering the packet.

As to **claim 3**, the transmission means is logically divided, see e.g., figure 1.

As to **claim 11**, see similar rejection to claim 1.

Allowable Subject Matter

6. **Claims 2, 4-10, and 12-17** are allowed.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2616

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
